“Visiting Hours” - Set in a hospital, this intimate and meaningful drama looks into the ways God works through each person’s gifts and story to bless the whole community. It tells a shared story of life and faith from multiple perspectives, the stories of both the one receiving care and those giving it.

Family caregivers, professional caregivers, health-workers and anyone involved in lovingly ministering to those in crisis or need will be blessed by this event. Professional Caregivers are saying the drama lifted them up and encouraged them in the work they do and to keep on doing it.

Give a gift to any medical workers or care-givers you know by inviting them to experience this drama and affirmation of the work they do. “Visiting Hours” is written by Curt Cloninger and performed with permission by professional actor and speaker, Pastor Jonathan Swenson of Paraphrase Theater.

“SURVIVOR STORY”

During the education hour between the services on October 8, come and also be blessed by this deeply personal and very moving presentation by Jana Swenson who shares from her personal experience with two rounds of Breast Cancer.

Jana shares candidly about her fears, struggles, doubts and faith in the midst of the storm, and yet celebrates God’s presence in it all. It is a sharing that has helped people name the spiritual, relational and emotional needs that they have experienced during their own times of crisis.
